

# JUICENET ENTERPRISE

Commercial Charging Stations

## Powerful & flexible smart grid EV charging software at an affordable price

Our advanced EVSE asset management platform, JuiceNet Enterprise delivers the financial savings and flexibility you need to efficiently manage your EV charging operations at a single property or across a portfolio of locations. It's the perfect solution for condominiums, apartment buildings, offices, shopping malls, universities, event venues, garages, and more.

Whether your system is just getting started or you're already powering an entire fleet of vehicles, JuiceNet Enterprise is designed to help you:

- Monitor and control your system with a powerful online dashboard
- Reduce energy costs by controlling charging times and managing demand charges
- Generate new revenue from your charging stations with flexible payment options
- Provide authorized drivers an easy way to charge with our intuitive driver app (iOS & Android)
- Optimize charging times and aggregate stations to reduce energy costs using industry-leading open smart grid standards

### Why JuiceNet Enterprise?

<p><b>Control Station Access</b></p> <p>Set charging times and allow authorized users to access charging</p>	<p><b>Balance Your EV Load</b></p> <p>Expand your charging operations without expensive infrastructure upgrades</p>	<p><b>Save on Charging Expenses</b></p> <p>Cap overall electricity consumption and manage demand charges</p>
<p><b>Generate Revenue</b></p> <p>Collect payment through mobile app or create invoices from reports</p>	<p><b>See System Health</b></p> <p>A powerful dashboard and robust reporting let you monitor charging stations and driver activity</p>	<p><b>Make Charging Easy</b></p> <p>Simple app for drivers to control and monitor their charging</p>

## JuiceNet Enterprise Administrator Features

- |   |  |
|---|--|
| <b>Charging Station Management</b>          | <ul style="list-style-type: none"> <li>› Assign devices and settings to locations and sublocations</li> </ul>  |
